DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12, drawn to a method for producing transgenic animals, wherein the animals are mammals, classified in class 800, subclass 25.
- II. Claims 1-12, drawn to a method for producing transgenic animals, wherein the animals are non-mammalian, classified in class 800, subclass 25.
- III. Claims 1-2, drawn to a method of producing transgenic animals, wherein the animals are unisexual flower plants, classified in classes 800 and 800, subclasses 287 and 288.

Although there are no provisions under the section for "Relationship of Inventions" in MPEP 806.05 for inventive groups that are directed to different methods, restriction is deemed to be proper between Groups I, II, and III, because their methods appear to constitute patentably distinct inventions, each with a distinct purpose and further comprising distinct methodologies and using different products. For example, the invention of Group I requires the use of transgenic mammals, while the invention of Groups II and III require the use of non-mammalian animals and plants, respectively. Mammals, non-mammalian animals and plants are biologically classified in different orders, and thus comprise different species having different basic genetic structures, i.e. mammals produce milk. Because these inventions are distinct for the reasons given

above and a separate search is required for each of Groups I, II, and III, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner(s) should be directed to Peter Paras, Jr., whose telephone number is 703-308-8340. The examiner can normally be reached Monday-Friday from 8:30 to 4:30 (Eastern time).
